# M

## arketing Launch : 0903MW

These new products are launched firstly to satisfy specific requests coming from the market and secondarily to complete the product range

There is a 100W which is, at present the most compact 100W DIN Rail power supply ( including the 90W version to comply with UL 1310 Class 2 ). A 100W with high voltage input to fill a small niche of the market in which there are not so many competitors. The 300W is compact as the 240W. And last but not least the 2 redundant modules to be used in those applications where DC power has to be guaranteed even in case of failure of the main Power supply

### PRODUCT FAMILY :

- *SPD xx100 1*                      *SPD100W single phase*
- *SPD xx90 1*                      *SPD 90W single phase*
- *SPD xx100 2*                      *SPD 100W bi-phase*
- *SPD xx300 1*                      *SPD 300W single phase*
- *SPD24RM20*                      *Redundant module 24V 20A*
- *SPD2RM2410* *Redundant module 24V 10A*

This Launch Package can be found at :  
Reserved area – Learning Centre – Marketing Launches – Controls

### CONTENT OF THE PACKAGE

- **Press Release**
- **Product Picture at 300 dpi**
- **Product picture thumbs**
- **PPT Presentation**
- **Data Sheet in PDF format**
- **Brochure**
- **Certificates**
- **CAD drawings DXF and PDF**

The Item Master is sent separately in the launch mail
